

Professional Bachelor of Crafts in Glass and Ceramics

Points for Admission Test and Interview and Final Point Score 2025

37 applicants for the Crafts in Glass and Ceramics programme completed the admission test by handing in the required assignments and participating in the interview.

The Academy expects to offer 16 study places for the Crafts programme.

Below you find the scores from the admission test and interview along with your final point score from online test and test in Copenhagen.

It is the Final Point Score that determines who will be offered a study place.

Please note that changes might occur. For instance, some applicants might choose to annul their application, or they are admitted to other schools, and therefore it might change your position. This also means that we can't estimate your chances of being offered a study place. Offers of study places are sent 28 July.
